3

Business models for a Wireless Internet Service Provider

Services

Our feeling TODAY

•DSL substitution/completion for Residential and SoHo

•Dedicated T1 for SME

•WIFI Backhaul

•Triple Play

Why we chose WIMAX

TODAY: ROLL-OUT

1. Limited investment in infrastructure
2. Short time of deployment

TOMORROW: WIMAX IS THE RIGHT WAGON OF INNOC

1. Standard means adoption and interoperability
2. New technologies and applications: nomadism
3. And anywhere technology will bring us!....

Thank You!
